Re: Roundtable Solutions Opportunity

Dear Community Leaders and Business Friends,

Roundtable Solutions is a 501(c)3 vision that exists to CELEBRATE students who learn in unique and wonderful ways, but are often misunderstood in the classroom. This began from the heart of a mother who had one child being fiercely celebrated through his diagnosis and another going completely unnoticed with another.

Through the needs of our family (*yes- I'm that mother*) and with a vision for generations of students to come, **Roundtable Solutions™ was born in 2013**. After years of successful grassroots efforts to support, celebrate, and encourage students and their families, we believe it is time to bring even more chairs to this round table for the ever increasing levels of need that exist. We need YOUR help to make it happen!

**Here is the MISSION for 2015:**

- Creating and maintaining educational supports and solutions for “out of the box” learners.
- Enhancing current online parent support groups through greater technology.
- Continuation and expansion of educational celebrations such as Redeeming Red™/ World Dyslexia Day™, Bring on the Blue™, and other events to be announced.

There is a child whose life will change through services that your support helps provide. Sponsorship Opportunities are attached along with directions on how to contribute.

Thank you for partnering with us to be a game-changer for so many children.

Sincerely,

Christie Aitken  
President & Founder  
Roundtable Solutions
